We shall advocate equal liberty to all who conneborn equally free; to be so born, constitutes, when racycted with moral qualities, in our minds, the aristociple of human nature. Acting under these generic princusts, we further hold that, to be a permanent people, we must of a common political origin; and to be national, we ond cherish the native American sentiment, to the entire rodradical-exclusion of foreign opinions and doctrines in veneed by foreign paupers and European political ad-

ugain.

Religiously entertaining these sentiments, we as solemnly believe that the day has arrived, when the American should unite as brothers to sustain the strength and purity of their political institutions. We have reached that critical period foreseen and prophesied by some of the clear sighted apostles of freedom, when danger threatens from every ship that floats on the ocean to our shores; when every wind that blows wafts the ragged paupers to our cities, bearing in their own persons and characters the elements of degradation and disorder. To prevent these evils, we are now called upon to unite our energies. To fight over this great moral revolution, the shadow of our first revolt of glory, will be the duty of the sons of those wars, and we must go into the combat determined o abide by our country; to preserve her honor free from tontagion, and her character, as a separate people, high above the engraftment of monarchical despotisms.

ARTICLES OF THE CONSTITUTION.

ARTICLES OF THE CONSTITUTION. First. We bind ourselves to co-operate, by all lawfu means, with our fellow native citizens in the United States to procure a repeal of the naturalization law.

Second. We will use all proper and reasonable exertions to exclude foreigners from enjoying the emoluments or honors of office, whether under the General or State Governments.

Third. That we will not hold him guiltless of his countries.

Third. That we will not hold him guiltless of his country's wrong who, having the power, shall place a foreigner in office while there is a competent native willing to accept.

Fourth. That we will not, in any form or manner, congert ourselves with the general or local politics of the power discovered as a purifier of the blood and fluids; it is superior to sarsaparilla, whether as a sudorific or alterative.

A paper, called "The Native American," was commenced a few days after the organization of our Society, and has already near 1,000 subscribers. In many places our doctrines have found ardent and able friends; but to accomplish our patriotic ends so that we may rely upon ourselves for the blessings of peace, and in the perils of war, it will be necessary for all to take a part, and promptly separate the birthrights of our own People from the indiscriminate pretentions of the paupers and outcasts of the Old World.

Show, that when every other earthly remedy has been given up, Hunt's Botanic Pills have never been known to fail in effecting two very gratifying results, that of raising from the bed of sickness and disease those who have tested their efficacy, and thus amply rewarding Dr. Hunt for his long and anxious study to attain this perfection in the healing art.

To repeal the laws of Naturalization; and The establishment of a national character, and the perpetuity of our institutions through the means of our own countrymen.

THE ROOT OF THE DISEASE, the superficial anodynes usually prescribed, serve but as foils to cover the ravages of deeprooted maladies. Under these convictions, at the expense of years of close application, the doctor has discovered a medicine whose searching powers are irresistible, and in prescribing, it is with knowledge of its being a radical cure in the various diseases already entremented, even if applied in the most critical cases, but he does not pretend to ascribe to Hunt's Botanic Pills a supernatural agency, although from positive proofs within the knowledge of hundreds, he is prepared to show, that when every other earthly remedy has been given up. BOWEL COMPLAINTS CURED -Jayne's Carminative Balsam is a certain, safe, and effectual remedy for dysentery, diarrhea, or losseness, cholera morbus summer complaint, colic, griping pains, sour stomach, datulency, ecc. &c. and all spasmodic and nervous discases, as sick and nervous headache, hysteria, cramp

From Dr. M. L. Knapp, late physician to the Baltimore Dispensary, and agent for the Maryland Vaccine Institution.

BALTIMORE, MARCH 27, 1883.

DR. JAYNE: Dear Sir: You ask me what proofs I meet with of the officacy of you medicine. I can safely say that I naver pretcribed a medicine for bewelcomplaints that has given meso much satisfaction, and my patients so speedy and perfect relief as this. Whenever introduced into a family, it becomes a standing remedy for those ailments, and is called for again and again, which I think a pretty good proof of its efficacy and usefulness. In the summer complaints of children it has frequently appeared to mer complaints of chitzen it has requently appeared to snatch the little victims, as it were, from the grave. "It saved the life of my child, and of such and such a child," I have repeatedly heard said. In dysenteric affections of adults, I have time and again seen it act like a charm, and give permanent relief in a few hours, I may say in a few minutes. In fine it is a valuable medicine, and no few lines with a title of the same of t family should be without it. Respectfully, M. L. KNAPP, M. D.

From Dr. Wm. Steeling, Physician to the Cumberland, N. J. Almshonse.

BRITGETS W. JULY 19, 1886. This may certify that I have used Dr. Jayne's Carminative Balsam very extensively in bowel complaints, and have not the least hesitation in declaring it superior to any preparation that I have met with for the relief of those diseases.

GERMANTOWN, APRIL 30, 1838.

Dr. JAYNE: My Dear Sir: It gives me pleasure to communicate in this manner, my favorable opinion of your Carminative Balsam. For two years it has been in almost constant use in my family. It was thus introduced: A child of five years old had been sick some five or six days with the dysentery. Calomel and other medicines had been largely administered, but without the least apparent benefit. The peculiar discharges from the bowels were unchanged in both character and frequency; the strength of the little patient could not hold out much longer. At this juncture, I was reminded by a friend of your Balsam. After a portion of caster oil, it was administered several times through the night. In the morning, the physician found the discharges essentithe morning, the physician found the discharges essentially changed; the disease was checked, may, removed; all other medicines were discontinued, and the child was soon restored to usual health. We have ever since kept this invaluable medicine on hand, and for both adults and children have found it uniformly efficacious. We readily contaren have found it uniformly emeacious. We readily pronounce it the best adapted to family use of all the preparations with which we are acquainted Hoping that the public will soon become universally acquainted with this medicine,

I remain yours, &c.

In proof of which read the following remarkable cure of a case of 12 years' standing:

Extract of a letter. "Sir: My leg, which before did not look like a human limb, is now entirely healed up (after resisting every other application for 12 years') Previous to taking your Relfe's Botanical Drops, I had given up all hope of relief.

Another Case. An agent writes, "There is a person taking the Botanical Drops, evidently with the greatest

taking the Betanical Drops, evidently with the greatest advantage." He declares, to see his own words, "It is doing wonders for him," and is, as it were, "snatching him from the grave."

Numerous instances have occurred where persons were pining away a miserable existence, nothing they coul-procure affording them permanent relief, until they ha

made use of the above invaluable Medicine.

They are also the best Spring and Autumnal Physic.

MPROVED SURGEON'S TRUSSES, for the radical cure of Hernia, or Rupture, by HEBER CHASE

The committee of the Philadelphia Medical Societ or the investigation of the radical cure of Hernia, ob

Fully impressed with the extreme caution requirein forming conclusions concerning changes of structure taking place in parts of the body concealed, not only be the integuments, but by tendinous matter and fascia, anywhere the nature of the disease renders the opportunity of post mortem examination exceedingly rare, your com-mittee has been desirous to avoid that blameable haste in the decision of important questions which has too fre-quently given to plausible but ingenious methods of treatment a temporary reputation, to the abuse of public confidence and the injury of the profession, by granting to empiricism the weight and influence of great names.

"The instruments of Dr. Chase have effected the per-

manent and accurate retention of the intestines in every case of hernia observed by the committee, without material inconvenience to the patient, and often under trials more severe than are usually ventured upon by those who wear other trusses-trials which would be imprudent with

any other apparatus known to the committee "The committee are induced, by the foregoing conclusions, to recommend, in strong terms, the instruments of Dr Chase to the confidence of the profession, as the best known means of mechanical retention in hernia, and as furnishing the highest chances of radical cure.

"They have no hesitation in saying that, were they in-

dividually affected with this terrible disease, they would resort to this method of treatment, with the triple view

of securing their comfort, safety, and ultimate chance of REYNELL COATES, M. D., WM. ASHMEAD, M. D., ISAAC PARRISH, M. D.,

"All must now admit of the radical cure of Hernia, and that Dr. Chase's Trusses are decidedly the best yet invented to effect that object."—Southern Medical and Surgical Journal.

For the utility and excellence of these instruments, reference may be had to the principal physicians of this city, who are prepared to apply them.

THE HAIR! THE HAIR!

The greatest ornament to the human body is a splendid head of hair. It has recently been discovered that the genuine Buffalo's Oil is a soveriega remety for baldness, prevents the hair from coming off, promotes the growth, continues the inxuriance, and improves the beauty. It is far superior to any other animal or vogetable oil, and in case of fever, where the hair becomes dry and begins to fall off, there is no application more effectual in restoring its beauty and rendering it in a healthy state.

It is put up at a low price, (37 1-2 cents) that all classes can have access to it. None genuine unless put up in flat bottles, with HAIR OIL in 1975 pressed in the glass. Also, to prevent imposition, it will be signed by the Brown, 481 Washington, corner of the state of
